

Montana Bison Hunt Application, Licensing, and Harvest Data 2005-2010

2005 (6,200 applications)

License Structure	Licenses Issued	Bison Harvested	% Harvest Success
50 ES	40 ES	40	100%

Notes: In 2005, there was only one hunting district (encompassing the current HD385 and HD395). Under Senate Bill 91 (2005), 16 licenses are offered to the 8 Montana Native American Tribes (2 each). In 2005, 3 tribes accepted the licenses, 10 licenses went un-issued. From 2006-2010, the unaccepted state tribal licenses were reissued by drawing to state hunters. State tribal hunter harvest is counted in the State Harvest total. Tribal treaty harvest is not counted in State Harvest totals and percentages. ES=Either-Sex; CC=Cow/Calf. **There is no mandatory reporting of bison harvest. These data are based on anecdotal reports from bison hunters, FWP staff, and Buffalo Field Campaign.**

Note: Tribal treaty harvest is conducted under the 1855 Stevens Treaties. The Nez Perce Tribe (Idaho) and the Confederated Salish and Kootenai Tribes (Montana) currently participate. Harvest success by tribal treaty hunters cannot be determined because the number of licenses issued by the tribes is unknown.
